

Your Equipment Deserves World-Class Protection.

XD Design is a Dutch brand creating award-winning backpacks and bags that combine minimalist design with intelligent protection. XD Design products have made "Must Have" lists in over 30 countries and have won the Red Dot and IF Design Awards.

Why Is XD Design the Right Choice for IT Companies?

Anti-Theft – access only from the back panel

Zips and the main compartment are hidden against the wearer's back. A pickpocket cannot open the bag without the owner's knowledge – not even in a crowd, on public transport, or at the airport.

Dedicated Laptop and Tablet Compartment

Every XD Design model features a dedicated padded pocket for a laptop (up to 15.6–17") and a tablet. Your devices are securely held and isolated from the rest of the bag's contents.

USB Port and RFID Protection

The built-in USB port lets you charge devices directly from the bag. Special shielding layers protect bank cards and documents from wireless data theft (RFID/NFC).

Award-Winning Design – Red Dot and IF Design Award

XD Design has repeatedly won prestigious design accolades. These are products that impress not only with functionality but also with aesthetics – ideal as a premium corporate gift.

XD Design in Your Company – What Do You Gain?

1 Equipment and Data Protection

Anti-theft construction and RFID shielding deliver a genuine reduction in the risk of losing a laptop, phone, or company cards. An investment that pays for itself after the very first incident.

2 Image and Prestige

XD Design is a recognisable premium brand. Equipping your team with XD Design products builds a professional image in the eyes of clients and partners – especially at meetings and conferences.

3 Premium Gift and Onboarding

XD Design products make the perfect onboarding gift or performance reward. Their high quality and recognisable design ensure employees use them every single day.

„Equipment security starts with the right bag. XD Design is the only brand we recommend to our mobile workforce.“

XD Design Models – Find Your Perfect Match

Model	Key Feature	Best For...
Bobby Edge	New generation – hard shell, anti-theft, USB port	Daily use, developers, managers
Bobby Bizz	Backpack + briefcase 2-in-1, RFID, 15.6"	Sales reps, lawyers, managers

XD Design Bobby Trolley – Travel Without Compromise

BOBBY TROLLEY

Anti-theft wheeled backpack – cabin size

The Bobby Trolley is a unique combination of anti-theft backpack and cabin suitcase. The telescopic handle and wheels make rolling luggage effortless, while straps stowed in a dedicated pocket allow carrying it on your back.

Meets carry-on requirements for most airlines. A separate, secure compartment for laptop and tablet.

Specifications:

- Cabin dimensions: meets IATA requirements
- Telescopic handle + 2 wheels
- Hidden straps – can be worn as a backpack
- Laptop pocket up to 15.6"
- Anti-theft lock with TSA approval
- RFID protection
- Warranty: 2 years
